To Our Wonderful Guests,

Who would have believed that Maine would be celebrating its 200th birthday in a year like this?

While everybody has had to deal with the last few months in different ways, the one constant in all your lives was anticipating your visit to Sebasco. We hope your family longed to come here this summer for an opportunity to escape, and relax, and enjoy our beautiful wide-open spaces. I know we have been wishing that you could come.

It has taken far too long for the State of Maine to determine how it wants visitors to come this year. Our COVID 19 cases have been among the lowest in the country. Some of our health professionals have preferred that no one visit this summer to insure keeping it that way. That was not fair to you or us.

Finally, just two weeks ago, Maine determined that it would offer a testing solution instead of a 14-day quarantine, and that our neighbors in New Hampshire and Vermont would require neither. Just last week, they moved the opening date for out-of-state visitation to June 26, so many more of you could come. And while Maine is encouraging all of you to test at home, some of you still can't, so anyone who arrives without testing or quarantining will be able to test nearby and will have to lay low until those test results have been received, usually within 48 hours.

We have [attached the form](#) that we anticipate you will have to sign when you arrive. Only one member of the family household will need to be tested if you go that route and will sign the form. We cannot ask for your test results, so we will trust that you have done so. And if you do need to quarantine for a few days while you await your test results if you get them here, you won't believe all of the wonderful things that we've done in anticipation of that.

And quarantining is not jail. It just means you need to avoid our public spaces, like the restaurants and other licensed areas at the resort. But that is less than one acre of our 450, so the rest of it is yours to enjoy. And we will deliver whatever meals you need or get you what you need to cook yourself in our cottages with that capability if you do have to quarantine.

We cannot wait to see you and please reach out to us personally if you have any questions.

Thank you so much for your patience and for continuing to make Sebasco an important part of your family experience.
